

In regards to changing the Indiana Telephone Privacy Law, it would increase the number of phone calls I get in a day. Before I signed on the Indiana No Call List I received calls from as early as 7:00am to as late as Mid-night. Most of which was not my friends or family, it was telemarketing. This interferes with my care of my grandchild and my day to day activities. Please leave the Law alone. Thank you and may God bless and guide you.
